

TRULINE[®]

The Innovative Hybrid Sheet Piling System

Drawing 105

wood composite cap, piling deadman

FASTEN DECK BOARDS TO TIMBERS WITH STAINLESS DECK SCREWS TO PROVIDE FOR LONG TERM COMPOSITE ACTION OF ASSEMBLED CAP

FASTEN INNER AND OUTER TIMBERS THRU SHEETS AS SHOWN 24" O.C.

WOODEN TOP CAP CONSTRUCTED FROM PRESSURE TREATED TIMBERS AND DECK BOARDS

This drawing is provided to show a typical concept for constructing a wall of this style. It is not intended to be used as a final design for any specific project. There are many geotechnical and structural properties that have to be considered in the design of a project. These factors vary depending on conditions that are potentially unique to each jobsite. As such, project specific designs must be performed by a qualified engineer familiar with the conditions on the actual site.
